Good to know

Fe is Pe without the dot: p becomes f.

Hebrew is written from right to left, and a letter is drawn from the top down: the roof first, then the walls, then the floor. Every letter hangs from the top of the line — Lamed alone reaches above it — and Qof and four of the five final forms drop below it.

Practice

◀ Hebrew is written from **right to left**. Start each line at the green arrow and work toward the left.
